“Chad was a good hearted man who had his struggles but when he had his daughter those struggles became less and less I just saw him a week before he passed away and I am so glad we got to see him seeing him with his daughter was a plesent suprise, when he held her the whole room lit up. My prayers and thoughts go out to his father and girlfriend. I know that this is not easy I know I just lost someone who ment the world to me and I wish I had something to say to make it easier as time passes you will heal, but you never quite heal that's the sad truth, they say time heals all wounds. I hope that is true. Chad had such a big heart and was a hell of a man. his father raised him by himself for years and did the best he could and has proven to be a wonderful grandfather. That little girl is lucky because if he is half the father he was she will never want for anything.
