“ I am in hopes that the Doi family will remember the Hooten family (Carl and Marlene). We shared many family gatherings with our parents as children. My sister Susan and myself (Laura) are so sorry to have heard of your loss. Feel comfort in knowing Heather is now with her parents and helping to watch over all of you. God Bless.

“ My dearest closest best friend I don't want this to be true I dont Want this to have happened. All of my fondest memories are with you. I can't stop them from overloading my mind right now so many to share but you are who I want to share them with.. anyone who knew you was blessed to get to know you were blessed to see your smile. I can't even think of what my favorite memorie is because there are so many. Teachers would pull u out of class to come calm me down because only you could. When I needed a shoulder to cry on you held me until I laughed. You would always meet me half way when I wanted to sneak out cause I couldn't sleep and we would go sit in your roomuuntil school when I or you messed our hair up and it turned orange the other would do the same so neither of us would be made fun of cause it would be on purpose if we both did it. Liz Phelps could get us to stop talkin just by singing over the rainbow and you I and Tracy played in stl together.you would tell me how much your dad meant to you and how mad you were at Jon but that u looked up to him cause he was always there. I remember we would begg to hang out with Jon and his friends. I remember our first crush's. I remember wreaking my moms car taking you to see your mom you loved her so much. I remember our last phone call we were going to meet up and catch up on what seems to be a life time. And now I will have to wait to meet up with you and gossip but you will already know everything cause you in heaven watching all of us. I will always love you.. you made my life so much better in so many ways and I wish I could have told you how much you really meant to me. I love you heather Marie doi more than I think you could of ever known
