“Thom, Thom...What a ride. Your ups and downs was a real roller coaster ride which you took me right along with you for several years. Getting to know you was an experience. The warm you that loved flowers and your pets. The warm you that liked to help people although so much of those several years you were the one needing the help. I and so many wanted to help you and we could until you hit the down part of the ride. Then you were on your own pushing us away. You were alone at the end but you will be remembered as the kind soul deep down that we loved. Ev
