“ Randy, I just found out this morning 3-12-2016 that your father had passed away. He was one of the nicest supervisors I had ever worked with. Big Ed Schaninger retired L.S.T./Tech crew chief power plant

Ed Schaninger L.S.T/Tech crew chief - March 12, 2016 at 12:06 PM

JR

“ As a new snot nosed mechanic Wayne was my first influence of supervision at TWA.
His firm but calming demeanor was certainly always there for me as I made my way thru my mechanic probation with little experience in a highly experienced maintenance station.
Back then I was always amazed at how he spent all day cutting crashed fords in half and then putting the two good halves back together and then come to work on second shift and guide us thru our evening keeping us out of trouble.

What a great man and great memories.

“ I met you only once. But you leave behind a part of yourself deeply ingrained in your beautiful family. It is a legacy containing your worth and values. You made a difference that will continue as long as they survive forever forever. Your life reflects a life well lived and showed the strength of a strong man, father, husband, grandfather, great grandfather, friend, and citizen. Until we meet again. Chris White

“ We share in your loss. It was a pleasure to work for Wayne for all of his TWA years. We enjoyed his airline stories at the monthly meetings he would come to.
Our sympathy to the family, and especially to Randy.
